The Martin Audio AQ215 is a dual driver, direct radiating sub-bass in a heavily braced, vented enclosure. It features two very efficient 15" (380mm) long-throw bass drivers with high power 4" (100mm) voice coils and generously sized low frequency ports for low noise, high power operation.

The AQ215’s extended low-bass response and high efficiency make it the ideal partner for Martin Audio AQ Series full-range loudspeakers where high power, extended bass is required from a relatively compact enclosure.

A Martin Audio AQX Electronic Controller is available to provide subwoofer crossover, limiter and trim functions.
