The Martin Audio Beatline215 is a dual driver, direct radiating sub-bass in a heavily braced, vented enclosure. It features two very efficient 15” (380mm) long-throw bass drivers with high power 4” (100mm) voice coils and generously sized low frequency ports for low noise, high power operation.

The Beatline215’s extended low-bass response and high efficiency make it the ideal partner for Martin Audio Beatline Series full-range loudspeakers where high power, extended bass is required from a relatively compact enclosure.
