The dedicated electronic controller CMX1A is a 3 in 6 out device designed to maximise performance of the Screen 4 system.

Crossover frequencies, relative output levels, delay and screen compensated equalisation are all pre-set. Left, centre and right inputs are provided and there are low pass and high pass outputs for each channel.
CMX1A
Dedicated Screen 4 Controller

Overall dimensions:

- 482.6mm [19.00"
- 322.9mm [12.71"
- 316.6mm [12.46"
- 120.0mm [4.72"
- 2.0mm [0.08"
- 44.0mm [1.74"
- AC LEAD LENGTH = 1600mm (63"

## architectural and engineering specifications

The electronic system controller shall operate as a 3 in, 6 out 2-way device designed to maximise the performance of the Screen 4 loudspeaker system. Crossover frequencies, relative output levels, delay and screen compensated equalisation shall all be pre-set. Balanced left, centre and right inputs shall be provided and there shall be low pass and high pass outputs for each channel. All outputs shall include –6dB to +6dB front panel level controls. The power supply shall be capable of operating from a 100-120/220-240V 50/60Hz AC mains power source.

Dimensions (W) 482mm x (H) 44mm (1U) x (D) 118mm (19ins x 1.75ins x 4.6ins).
Weight 1.4kg (3lbs).

The electronic loudspeaker system controller shall be the Martin Audio CMX1A.

### Notes

1. Measured on-axis in half space at 2 metres, then referred to 1 metre.
3. Measured in half space conditions at 2 metres with 1 watt input, using band limited pink noise, then referred to 1 metre.
4. Measured in half space conditions at 2 metres using band limited pink noise, then referred to 1 metre.

### Trade Descriptions Act

Due to Martin Audio’s policy of continuing improvement, we reserve the right to alter these specifications without prior notice. Martin Audio is committed to refining state of the art sound reinforcement, combining in-depth product and field applications research with advanced manufacturing techniques. Every Martin Audio product is built to the highest manufacturing standards and rigorously tested to ensure that it meets the performance criteria specified in the design.
