

CSX212-WR

Compact Subwoofer - Weatherised

Features

- Compact, direct-radiator subwoofer
- 2 x 12" (300mm) drivers with 3" (75mm) voice coils
- Water resistant cones
- Compact, low-profile styling
- Large ports for reduced air noise
- Zinc plated mild steel grille with powder coated finish
- Plywood cabinets with polyurea coating
- Operating temperature -20°C to +70°C
- Environmentally tested to meet IP24
- Flying points with fixings made from stainless steel
- Black or white standard colour options

Applications

- Outdoor restaurants, bars, hotel areas
- Nearfield systems in outdoor stadia, transport hubs, concourses and theme parks

With twin high-efficiency 12" (300mm)/3" (75mm) voice coil long-throw bass drivers and optimally-sized reflex ports to minimise air noise, the CSX212-WR is the perfect sub-bass where low frequency extension and impact is required from a very compact, unobtrusive, low-profile enclosure and suitable for outdoor applications where it will be subject to changing environmental conditions but sheltered from direct exposure to the elements.

The CSX212-WR is designed to be used with CDD Series full-range systems from the CDD5-WR to the CDD12-WR and extends the low frequency operating range of the combined system down to 40Hz. The enclosure is constructed from plywood with

polyurea coating, while the drivers are protected by a water and particle resistant zinc plated mild steel grille with powder coated finish, which is pre-curved to withstand physical damage.

Finished in black (RAL9005) or white (RAL9016) as standard, CSX212-WR is supplied with flying points with fxings made from stainless steel. Operating temperature is from -20°C to +70°C and they are environmentally tested to meet IP24.

When used with CDD full-range systems, crossover and EQ functions can either be performed by the DX0.5 and DX4.0 system controllers, or by an iKON amplifier.

CSX212-WR

Compact Subwoofer - Weatherised

Technical Specifications

Acoustical TYPE Compact, dual-driver, direct radiating subwoofer FREQUENCY RESPONSE (1) 48Hz-150Hz ± 3dB -10dB @ 35Hz DRIVER 2 x 12" (300mm)/3" (75mm) voice coil, long excursion, ferrite magnet, waterproof cone RATED POWER (2) 800W AES, 3200W peak RECOMMENDED AMPLIFIER iK42 / VIA5002/5004 SENSITIVITY (10) 106dB MAXIMUM SPL (9) 132dB continuous, 138dB peak (half space) NOMINAL IMPEDANCE 4 ohms DISPERSION (-6dB) 0mnidirectional CROSSOVER 80-120Hz active ENCLOSURE 100 litre, Exterior grade Plywood, Flying points with fixings made from stainless steel FINISH Black or white Poly Urea coating PROTECTIVE GRILLE Black or white zinc plated mild steel grille with powder coated finish ENVIROMENTAL Rated at IP24 CONNECTORS Low profile 20A push-lock. weatherproof input panel cover with cable gland PIN CONNECTIONS Left to right: Input+, Input -, Link -, Link+ DIMENSIONS (W) 872mm x (H) 385mm x (D) 437mm (W) 34.3ins x (H) 15.2ins x (D) 17.2ins WEIGHT 39.5kg (87lbs)	······	• • • • • • • • • • • • • • • • • • • •
