

VU-NET 2.2.8 Release Notes - November 2023

This release of VU-NET includes new features for iKON and DX4.0 controllers

Latest Firmware Version.

Please ensure all devices are running the latest firmware version. These are:

- iK42 Firmware version - 1.654
- iK81 Firmware version - 1.654
- DX4.0 Firmware version - 1.549

Point Source Preset Rationalisation.

Added new filter settings for all point source products using 24dB/Oct Linkwitz-Riley filters:

- 4" to 6" highpass filter - default set to 100Hz
- 8" to 15" highpass filter - default set to 80Hz

Subwoofers.

Subwoofer presets now include:

- Default
- 80Hz
- 100Hz

The new presets have a default gain and delay offset to match the new point source preset rationalisation.

Presets.

Added THS.

- Fullrange
- Highpass - default set to 80Hz

Changes.

- Updated limiter settings for 18" subwoofers
- T8 and T12 presets combined into a simplified TORUS preset loader
- Highpass presets for T8
- Highpass presets for T12
